Ford Expedition Brake Caliper Replacement Costs
01: H eat can cause brake drag in several ways but the most common scenario is due to brake fluid reaching and exceeding its boiling point. Verify there is adequate clearance between brake lines and exhaust and depending on the location of the master cylinder or booster/master, make sure there is ample room between those components and the engine or exhaust.

How To: Diagnose and Fix Brake Drag
The Ford Expedition owner is a savvy buyer interested in adventure AND reliability. The dependability of your brakes is not only crucial for driving on and off road, but also peace of mind.
