Brake light bulbs grow dimmer over time and eventually burn out. This video shows you how to change the brake lights on your 2010 Acura ZDX. When you replace the brake light bulb on your ZDX, be careful not to touch the bulb directly with your fingers - the oil from your skin will cause the area that you touched to burn hotter than the rest of the bulb, which causes the bulb to burn out quicker.

The brake light could mean a number of things, from having low brake fluid to having worn brake pads. Most of the time, this light will appear accompanied by squeaking noises or mushy brake pedal. However, before you do anything, check your emergency brakes; if it's activated, even just a little, this light could turn on.

**2011 Acura RDX Replacement Light Bulbs**  
The brake light switch is a mechanical switch activated when you press the brake pedal. The switch has a plunger in it that contacts a lever in the brake pedal assembly. As that plunger is depressed when you push on the brake pedal, the contacts in the brake light switch closed and voltage flows to the brake lights — turning them on.
