The Airbus A380 is a wide-body aircraft manufactured by Airbus. It is the world's largest passenger airliner. Airbus studies started in 1988 and the project was announced in 1990 to challenge the dominance of the Boeing 747 in the long haul market. The A3XX project was presented in 1994; Airbus launched the €9.5 billion (\$10.7 billion) A380 programme on 19 December 2000.

“The global impact of the Airbus A380 phase-out write down is estimated at 500 million euros and will be booked in the second quarter of 2020 as a non-current cost/expenses,” the airline said. The nine jets are grounded mostly in Paris, with some in Tarbes, France, and Teruel, Spain.

Air France is retiring the A380. Here's why we won't miss it

The A380 is an aircraft of historical significance for both the right and the wrong reasons. While it is the largest commercial aircraft ever built, its grandeur is now butting heads with the balance sheet. It means some airlines are reflecting on how best to use the A380 in their fleets.
