### Desperate Games

Long before Battle Royale or The Hunger Games, the author of The Planet of the Apes imagined a world governed by science and brutality gone mad in this long-neglected, dystopian sci-fi classic, now in a new translation

### Amazon.com: Desperate Games (9781843915355): Boulle

...

Although marketed this way, Desperate Games isn't truly about that. It's more of a missive on humanity, knowledge, and society. The first two thirds of the book focus more on the establishment of a new "scientific" government which is interesting, but not very action-packed.

### Desperate Games by Pierre Boulle - goodreads.com

Welcome to the world of running dead. The game is based on running dead model. In the game, you will play as a blind girl who lost her eye sight by accident. To recover her sight, she has to join in the desperate game.

Desperate Games is practically a case study in how not to run with an idea. The premise (or what appears to be the premise) is quite clever: he posits that the international scientific community has come to the conclusion that the world's leaders are doing a very poor job of it, and that scientists could do things much better -- indeed, that a scientific approach is all it takes to solve all the world's problems.
