tenure system (how land rights are allocated and passed on), but also contribute to gender identification—part of male identity is control over land, part of female identity is exclusion from control over land and resources resulting in dependency.¹⁹ Another aspect of the relation between land and gender is citizenship. The

Land Tenure, Titling, and Gender in Bolivia

This book explores an interdisciplinary field at the intersection of gender and development studies, disaster and land tenure policy. It is well known that women generally have weaker claims to land.

Gender and Land Tenure in the Context of Disaster in Asia ...

Customary ownership and control of land is an essential component of any consideration of land tenure and access in South Sudan and Africa in general. Customary traditions of land tenure emphasize moderate use, restoration, and community health and prosperity. Returnees to South Sudan access land primarily through the customary system. Yet, many returnees are subjected [...]
